Product information

Metal foil tape and metal blanks

Precision has a name: M-Tech® F

Metal foil tape and metal blanks in the tried-and-tested materials, now available in an expanded range of thicknesses and with user-friendly M-Tech® F dispensers for Boxes and FlatPacks to ensure quick and direct use at the workplace. All materials and thicknesses can be freely combined; a self-adhesive design is available in almost all material thicknesses. M-Tech® F products are packed in environmentally friendly Boxes or FlatPacks.

M-Tech® F-Metal foil tape in a Box

150 x 2500 mm foil tape in a coil, different materials and thicknesses from 0.010 mm to 0.100 mm. Easy to pull the tape out due to optimisation of the content level. From 0.025 mm upwards, it can also be delivered in a self-adhesive design.

M-Tech® F-Metal blanks in the FlatPack

Five finished metal blanks, size: 150 x 500 mm, also in self-adhesive design, in different materials and thicknesses from 0.025 mm to 1.0 mm.

Ready to hand – in constant use

- As a spacer sheet **in tooling**.
- For adjustments **in engineering**.
- For alignments **in repair work**.
- For fine adjustment of components **in production**.
- As a shield **in electrics**.
- As a base and cladding material **in model construction**.
- For underlays, templates and cladding **in craftwork**.
- As a semi-finished product** for small series and decoration.

More product – more safety – more service

Boxes and FlatPacks can be easily stored ready for use in compact dispensers. Our dispensers are designed for table or wall mounting, can be individually refilled and provide you with variety, organisation, ease of use and safety at the workplace at all times.

CombiStore FlatPack

The CombiStore FlatPack meets all workshop requirements for a wider range of applications and provides an optimal answer to all your material needs. This dispenser ensures that you have four FlatPacks of your choice and the special scissors ready to hand.

CombiStore Box

All ready to use, stocked with four Boxes of metal foil tape of your choice and the M-Tech®F-Special scissors, the CombiStore Box is a practical and superbly equipped accessory for the workshop.

The CombiStores at a glance:
