

Confirmation of Compliance with regulation (EG) no. 2002/95/EG

In order to guarantee the sustainability of our processes regarding ecological and economical requirements and to achieve standards that are qualified for tomorrow's markets we are facing new challenges together with our customers.

This development also encompasses the exclusion of dangerous substances from our processes and products.

We hereby confirm, that the products and materials supplied from MARTIN do not contain any of the substances stated below or exceed their maximum concentrations as permitted by the RoHS and its definitions.

- lead and lead alloys
- mercury and mercury alloys
- Cadmium and cadmium alloys
- Chrom VI and its alloys
- Polybrominated Biphenyls and corresponding alloys
- Polybrominated Diphenyl Ethers and corresponding alloys
- Octabrominated Diphenyl Ethers
