

# M-Tech<sup>®</sup>F CombiStore for Box / FlatPack

**The M-Tech<sup>®</sup>F CombiStores for Boxes or FlatPacks are packaging units for foil tape or metal blanks.**

**They comprise the following:**

4 Boxes or 4 FlatPacks according to the customer's wishes, one Dispenser and a pair of special scissors.

## **Variants**

There are CombiStores for M-Tech<sup>®</sup>F Boxes and for M-Tech<sup>®</sup>F FlatPacks. The customer is free to choose the combination of contents from the range of products we are offering. The customer can choose from approximately 100 different products.

## **Scope of the product definition**

The workshop selection we used to offer was restricted as the customer had to choose one material and specific material thicknesses.

## **Manufacturing method**

The contents are put together in accordance with the end customer's request.

## **Field of Application**

All workplaces involving manual work, as well as workshop and assembly areas.

## **Handling**

The enclosed assembly aids can be used to fix the Dispenser to walls, tables or shelf edges (M-Tech<sup>®</sup>F Boxes) or alternatively to anywhere on the work surface (M-Tech<sup>®</sup>F FlatPacks). This allows the blanks and foil tape to be removed easily. This ensures that it is possible to maintain on-the-job safety and order at the workplace.
